

NATIVE AMERICAN CULTURES ASSIGNMENT

U.S. 1 Standard 1.1: Students will analyze evidence, including artifacts and other primary sources to make evidence-based inferences about life among several American Indian nations prior to European exploration of the Americas.

Directions: For this assignment, use the website provided (can also be found on Canvas and www.captainhome.com) and complete the compare/contrast assignment below. Identify a minimum of SIX (6) different Native American tribes that you can go explore the cultures of each tribe. Use the Native American Culture Group Tribes handout to make your selections. You will NOT be submitting this assignment for a grade. It is important, however, to examine the cultures of various Native American culture groups so that we have a better understanding of their cultures and customs so that as we study European exploration and the inevitable culture clashes to come, we have a better idea of how things could have been better.

CULTURE: The customs, arts, social institutions, and achievements of a particular nation, people, or other social group. In other words, it's the "way of life" of a group of people or "how we do things around here" system.
